### 3. Hazards Identification

**Health:** Unlikely to cause eye irritation.  
 Unlikely to cause immediate irritation but prolonged and repeated contact may be harmful to the skin.  
 Not volatile. It is not likely to be an inhalation hazard at normal ambient temperatures.  
 If overheated, fumes and vapours are irritating to the breathing passages and lungs.  
 Ingestion is unlikely to cause adverse systemic health effects.

**Environmental:** Although no specific ecological hazards are expected and bioaccumulation is unlikely, spillage into the environment should always be avoided.

**Physical / Chemical:** Not applicable

**Additional Information:** None

#### 4. FIRST AID MEASURES

<b>Eyes:</b>	Flush the eye with copious amounts of water. No emergency measures are necessary but if adverse eye effects follow, refer for medical attention.
<b>Skin:</b>	Wash the contaminated skin thoroughly with soap and water. No emergency measures are necessary but if adverse skin effects follow, refer for medical attention.
<b>Inhalation:</b>	Remove the affected person to fresh air. If recovery is not rapid, obtain medical attention.
<b>Ingestion:</b>	DO NOT INDUCE VOMITING. No emergency measures are needed but if adverse health effects follow, refer for medical attention.
<b>Additional Information:</b>	

#### 5. FIRE FIGHTING MEASURES

<b>Extinguishing media:</b>	<b>Recommended:</b> Dry chemical, foam, CO <sub>2</sub> , water mist. <b>Not to be used:</b> Direct water jet. Use water ONLY to keep fire-exposed containers cool.
<b>Specific exposure hazards:</b>	Slight flammability hazard when exposed to heat or flame.
<b>Special protective equipment for firefighters:</b>	Use self-contained breathing equipment when fighting fire in confined spaces.

#### 6. ACCIDENTAL RELEASE MEASURES

<b>Personal precautions:</b>	No special measures needed.
<b>Environmental precautions:</b>	Water may be used to flush spills away from sources of ignition. Do not allow the product to enter public drainage system or open water courses.
<b>Methods for cleaning up:</b>	Absorb and scrape up.
<b>Absorbent materials:</b>	Sand or active clay.

#### 7. HANDLING AND STORAGE

<b>Handling:</b>	Avoid prolonged or repeated skin contact. Avoid inhalation of vapour, mist or fume. Do not wear contaminated clothing.
<b>Storage:</b>	Keep containers tightly closed.

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

<b>Engineering measures:</b>	No special measures needed.
<b>Control parameters:</b>	TWA TLV (ACGIH) : 5 mg/m <sup>3</sup> for oil mist. However, in all circumstances exposure should be kept as low as reasonably possible by good ventilation and safe working practices.
<b>Respiratory protection:</b>	Inhalation of the vapours, fumes or mists should be avoided by safe working practices and good ventilation.
<b>Eye protection:</b>	If there is a risk of splashing while handling product, eye protection should be worn (e.g. full face shield or goggles with side shields).
<b>Hand/skin protection:</b>	Prolonged and repeated skin contact should be avoided by the use of clean gloves and clean overalls.
